

PRESS RELEASE: CARY STREET PARTNERS' FREDERICKSBURG WEALTH MANAGEMENT OFFICE TO MOVE LOCATIONS

Fredericksburg, Virginia – June 29, 2018 - Cary Street Partners was announced as the newest tenant for the Liberty Place development in Fredericksburg. The to-be-built commercial building will be 86,000 square feet with an attached 300+ space parking garage in downtown Fredericksburg. Cary Street Partners will occupy approximately 5,700 square feet on the top level, with direct access from the parking garage.

“This move gives us the opportunity to be in the heart of the city, ideally located for many of our clients, in a new and grand office space. It will be an impressive upgrade and is symbolic of our evolving firm” said Lee Murray, the Branch Office Manager. Lee also added, “Cary Street Partners has made an indelible imprint on Fredericksburg and this new office space will continue this tradition.”

Dan Clendenin, Managing Director in the firm’s Fredericksburg office, included the following, “We’re thrilled to be a part of this exciting new project in downtown Fredericksburg. The move gives us a state-of-the-art office space, centrally located, and will enable our advisory teams to best service our clients throughout the region. We also felt it was important to support the continued economic development of downtown and locate our business at the epicenter of so much culture, history, and vibrancy.”

The space will be in close proximity to most of the attorneys, accountants, and other professionals that our Fredericksburg associates often partner with on behalf of their clients. The developer is working through final plans with an anticipated move-in day in late-Summer 2019.
